NEW

OJ-200

by **OUTBOARD Jet**

Features

- 200 POUNDS OF THRUST
- ONLY 26" LONG (SHORTER THAN ANY OTHER!)
- EASY STARTING
- WEIGHS ONLY 58 POUNDS
- EXCELLENT FUEL ECONOMY
- GREATER SHALLOW WATER CAPABILITY
- NO DANGEROUS PROPELLER
- QUIET AND SMOOTH
- HORSEPOWER*

*In this Jet Motor (as in Jet Aircraft engines) horsepower is not a significant term. For compliance with regulations, this motor should be considered as being in the slightly less than 10 horsepower range.

THE IDEAL MOTOR FOR FISHING, HUNTING, OR FUN!

- Shorter Turning Radius
- Nothing Extends Below the Hull
- Reverses Instantly
- Maneuvers Exceptionally

Check the performance of the new OJ-200 by OUTBOARD JET . . . see for yourself how 200 pounds of quiet, efficient thrust will take you where you're going in a hurry! Now, cut down on the throttle . . . you'll find that the new OJ-200 performs equally as well and economically at trolling speeds.

The World's NEWEST and FINEST OUTBOARD!

A perfectly designed outboard for the SPORTSMAN . . . and his family!

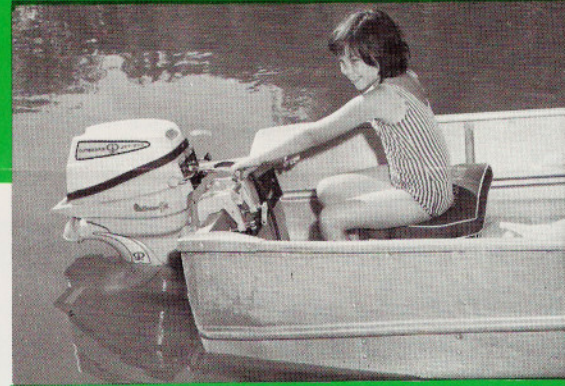

OJ-200

Fast currents, shallow water, and heavy weeds are no problem with the new jet-styled OJ-200 by OUTBOARD JET! From the first time out . . . whether it's a hunting trip, fishing trip, or a family picnic . . . you'll be convinced that the OJ-200 is the most remarkable outboard motor you have ever operated.

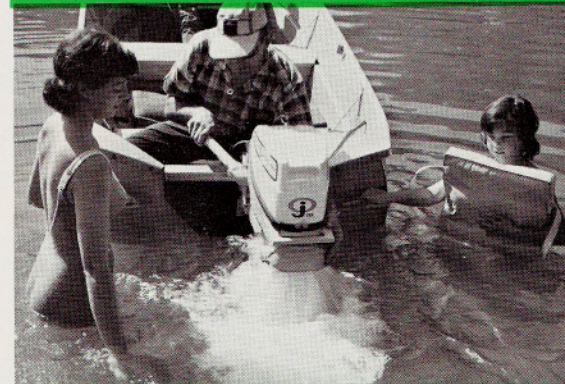

With no propeller and no projections below the hull, you can take your boat anywhere it will

float . . . including shallow marshes and inlets, where the big fish are . . . and the fisherman aren't. A 6-gallon remote fuel tank holds enough gasoline to give a full day of boating or fishing fun.

The OJ-200 is the finest in jet propelled boating. A powerful stream of water is forced through the jet nozzle—above the water line—producing 200 pounds of thrust at full throttle.

Even this little girl has no problem starting the OJ-200.

Have no fear when children are around your OJ-200. There's no dangerous propeller, therefore, no hazard. One more reason why the OJ-200 is a motor for the whole family to enjoy . . . as much as the fisherman or hunter.

YOUR NEAREST DEALER IS

No need to leave anything at home to make room for this outboard motor. The OJ-200 is only 26" long, so it fits easily into the trunk of even a compact car, with room left for fishing tackle or camping gear. Only 58 lbs. total weight—it's easy packing from the car to the water, too.
